General Comment

I am annoyed that a proponed rule change will affect a metihod tthat I have used to generate additional income from my investments. Specifically, the ability to sell a Call Optiion against a current position. This ability has lowered my risk and increased my returns for the past twenty years or so. It is a very conservative and simple methodology that should be taught and promoted in the investment world.

Please, do not take this critical tool away from me, and the multitude of investors who count on It for additional income.

Thank you for your consideration.
